

APPLICATION FOR PARTICIPATION

PROFICIENCY TESTING No. PTS 26/06-C-1

in accordance with ISO/IEC 17043:2023

1. Information about the applicant

Name of the Laboratory

Contact Person:

Telephone:

E-mail:

2. Information about the participation

Calibration Item	Measured Quantity	Calibration Points	*Participation	**Note
Digital hygrometer ETI Ltd Therma 6102	Air relative humidity	10 %RH; 20 %RH; 30 %RH; 50 %RH; 70 %RH; 90 %RH		

* The participation fee does not depend on the number of calibration points. A laboratory may participate in the PT scheme more than once, for example when different operators participate, when different reference standards are used, or for other internal purposes of the laboratory. In such cases, each participation is treated as an independent participation and a separate laboratory code is assigned.

** The "Notes" field may be used to indicate relevant remarks, for example when the laboratory cannot cover the full measurement range, etc.

3. Information about the obtaining of the PT item

Shipping address:

Postal code:

4. Invoice Data

Name of the Organization:

Company Registration Number
(National Identification Number):

Value Added Tax (VAT) Number:

Tax Address
(registration address of the organization):

Legal Representative:

Declaration and Acceptance of the Conditions for Participation

By submitting this Application for Participation, the applicant declares that they are familiar with the PT Plan, the Invitation for Proficiency Testing and the conditions for participation in PT scheme No. PTS 26/06-C-1 “Calibration of a Digital Hygrometer”, and accepts them.

The applicant declares that they accept the defined design of the PT scheme, including the sequential mode of operation, the method of circulation of the PT item, the deadlines for calibration and reporting of results, as well as the requirements for receipt, storage, handling, use, packaging and subsequent dispatch of the PT item.

The applicant accepts responsibility for the proper receipt, storage, handling, use, packaging and subsequent dispatch of the PT item for the period during which the PT item is in their possession, factual custody or under their control.

No adjustment, repair, modification, disassembly or other intervention on the PT item outside the usual calibration procedure is permitted. The PT item shall be used in the condition in which it was received.

In the event of loss, damage, functional malfunction, permanent contamination, condensation, unlawful retention or any other action or omission occurring during the period in which the PT item is in the applicant's possession, factual custody or under the applicant's control, the applicant accepts to reimburse the PT provider for the actually incurred and duly documented direct costs necessary to remedy the consequences and to preserve or restore the validity of the PT scheme.

Such costs may include, where applicable, costs for checking, repair, replacement of the PT item, transport, additional or repeat reference calibration, stability assessment, updating of assigned values and other direct costs necessary to preserve or restore the validity of the PT scheme.

In the event of established damage, functional malfunction, loss, permanent contamination, condensation, transport delay or suspicion of change in the metrological characteristics of the PT item, the applicant undertakes to notify the PT provider without undue delay and not to start or continue the calibration without written instructions from the PT provider.

The PT provider shall notify the applicant in writing of the established problem, the evaluated influence on the PT scheme and the amount of costs due, where applicable.

By submitting the application by e-mail, the applicant confirms that electronic correspondence through the e-mail addresses indicated in the application is accepted as an official communication channel in relation to participation in the PT scheme.

- I declare that I am familiar with and accept the above conditions for participation in PT scheme No. PTS 26/06-C-1 “Calibration of a Digital Hygrometer”, including the responsibility for receipt, storage, handling, use, packaging and subsequent dispatch of the PT item and, where applicable, reimbursement of actually incurred and duly documented direct costs.

⚠ The application date is considered to be the date on which the completed Application for Participation is received at the email address specified above.
