HABLO EDUCATIONAL PROGRAMS

ALL ABOUT EDUCATION

Operating for more than 5 years, Hablo Educational Programs was established with the mission to innovate in the educational sector by offering its students courses and training programs of all kinds, ensuring the highest quality and rigor.

We understand that in the world we live in, we must leave a positive impact on the young people we interact with daily. Our students are the future, and we take our role seriously. That's why we not only train future professionals in various fields but also educate individuals to coexist positively with their environment.

For this reason most of our programs use learning Spanish as a connecting thread, and we only collaborate with solid entities and institutions capable of meeting our quality standards. Besides ensuring the safety of our students, these partners must share values that align with ours.

SAFOR FÚTBOL CLUB

A REAL OPPORTUNITY

Founded on June 13, 2018, by its creator and president Luis Fabiano Tissi, originally from Curitiba, Brazil, Safor Soccer Club Gandia aims to train, prepare, and promote soccer players to a professional level, moving the team up through the categories to reach the top level of Spanish football, which means La Liga.

In these years, Safor CF Gandia has already been champion in two different categories and continues to strive for higher achievements. The team includes players from over 8 different nationalities, which enriches the style of soccer they play..

Since its foundation, some players have moved on to professional leagues in Portugal, Brazil, Italy, and Qatar. Thanks to the exposure gained in leagues, tournaments, and friendly matches against top-tier clubs, along with the team of professionals that our players compete with, each player's growth is well-supported.
